# jobsite of the month

Contractors share their views while painting

One of the best parts of being a painter is the views! Each month APC awards one company the Jobsite of the Month for photographing a fantastic view from their jobsite. One of those lucky companies will get the honor of a cover shot in December. Don't forget to send us your Jobsite of the Month by scanning below.

### Their Own Private Idaho

This month's photo comes to us from Mike Bellevue of Chewelah Painting in Chewelah, Washington. The owner waited three years to get on this job on the schedule. Bellevue flew out in a Cessna 180 to Idaho's back country, where the team worked on cleaning, bleaching, buffing, chinking and staining. A big job on an absolutely gorgeous mountain. Great view from the office!
